| 1         | EN 851              | Aluminium and aluminium alloys - Circle and circle stock for the production of culinary utensils - Specifications                                                                                                                                             | 2022        | EN                  | 0           |
| 2         | EN 899              | Chemicals used for treatment of water intended for human consumption - Sulfuric acid                                                                                                                                                                          | 2022        | EN                  | 0           |
| 3         | EN 933-9            | Tests for geometrical properties of aggregates Part 9: Assessment of fines - Methylene blue test - compares BS EN 933-9:2022 with BS EN 933-9:2009+A1:2013                                                                                                    | 2022        | EN                  | 0           |
| 4         | EN 941              | Aluminium and aluminium alloys Circle and circle stock for the production of general applications Specifications                                                                                                                                              | 2022        | EN                  | 0           |
| 5         | EN 1097-6           | Tests for mechanical and physical properties of aggregates Part 6: Determination of particle density and water absorption                                                                                                                                     | 2022        | EN                  | 0           |
| 6         | EN 1421             | Chemicals used for treatment of water intended for human consumption - Ammonium chloride                                                                                                                                                                      | 2022        | EN                  | 0           |
| 7         | EN 1787             | Foodstuff - Detection of irradiated foodstuff containing cellulose by ESR spectroscopy                                                                                                                                                                        | 2022        | EN                  | 0           |
| 8         | EN 1888-1-2018 + A1 | NULL                                                                                                                                                                                                                                                          | 2022        | EN                  | 0           |
| 9         | EN 2535             | Aerospace series - Vacuum deposition of cadmium                                                                                                                                                                                                               | 2022        | EN                  | 0           |
| 10        | EN 2713-012         | Aerospace series Cables, electrical, single and multicore for general purpose _ Operating temperatures between -55 °C and 200 °C Part 012: MNA (1 core), MNB (pair), MNC (3 cores), MND (4 cores), cables family _ Silver plated copper screened (spiral) and | 2022        | EN                  | 0           |
| 11        | EN 3077             | Aerospace series - Clamps worm drive - Technical specification                                                                                                                                                                                                | 2022        | EN                  | 0           |
| 12        | EN 3155-075         | Aerospace series - Electrical contacts used in elements of connection Part 075: Contacts, electrical, quadrax, size 8, female, type E, crimp, class R - Product standard                                                                                      | 2022        | EN                  | 0           |
| 13        | EN 3228             | Aerospace series _ Nuts, hexagonal, plain, reduced height, normal across flats, in steel, cadmium plated _ Classification: 900 MPa (at ambient temperature)/235 °C                                                                                            | 2022        | EN                  | 0           |
| 14        | EN 3373-001         | Aerospace series - Terminal lugs and in-line splices for crimping on electric conductors Part 001: Technical specification                                                                                                                                    | 2022        | EN                  | 0           |
| 15        | EN 3475-705         | Aerospace series - Cables, electrical, aircraft use - Test methods Part 705: Contrast measurement                                                                                                                                                             | 2022        | EN                  | 0           |
| 16        | EN 3660-062         | Aerospace series - Cable outlet accessories for circular and rectangular electrical and optical connectors Part 062: Cable outlet, style K, 90 degrees, for heat shrinkable boot, shielded, sealed, self-locking for EN 3645 - Product standard               | 2022        | EN                  | 0           |
| 17        | EN 3660-063         | Aerospace series - Cable outlet accessories for circular and rectangular electrical and optical connectors Part 063: Cable outlet, style K, straight, for heat shrinkable boot, shielded, sealed, self-locking for EN 3645 - Product standard                 | 2022        | EN                  | 0           |
| 18        | EN 3660-064         | Aerospace series - Cable outlet accessories for circular and rectangular electrical and optical connectors Part 064: Cable outlet, style K, straight, for heat shrinkable boot, shielded, sealed, self-locking for EN 2997 and EN 4067 - Product standard     | 2022        | EN                  | 0           |
| 19        | EN 3660-065         | Aerospace series - Cable outlet accessories for circular and rectangular electrical and optical connectors Part 065: Cable outlet, style K, 90°, for heat shrinkable boot, shielded, sealed, self-locking - Product standard                                  | 2022        | EN                  | 0           |
| 20        | EN 3745-412         | Aerospace series - Fibres and cables, optical, aircraft use - Test methods Part 412: Humidity resistance                                                                                                                                                      | 2022        | EN                  | 0           |
| 21        | EN 3792             | Aerospace series - Anaerobic polymerisable compounds - Technical specification                                                                                                                                                                                | 2022        | EN                  | 0           |
| 22        | EN 3830             | Aerospace series - Electrical system - Load analysis                                                                                                                                                                                                          | 2022        | EN                  | 0           |
| 23        | EN 4259             | Aerospace series - Metallic materials - Definition of general terms                                                                                                                                                                                           | 2022        | EN                  | 0           |
| 24        | EN 4260             | Aerospace series - Metallic materials - Rules for drafting and presentation of technical specifications                                                                                                                                                       | 2022        | EN                  | 0           |
| 25        | EN 4261             | Aerospace series - Metallic materials - Rules for drafting and presentation of test method standards                                                                                                                                                          | 2022        | EN                  | 0           |
| 26        | EN 4385             | Aerospace series - Non-metallic materials - General organization of standardization - Links between types of standards                                                                                                                                        | 2022        | EN                  | 0           |
